

Homelearning

This week we have been exploring Roman numerals and calculating with money in maths. In English we have been identifying and generating our own expanded noun phrases and where adverbial phrases.

We have followed instructions to measure, cut and begin to make Roman catapults. This is enabling us to apply our measuring skills and revisit our understanding of angles.

Our word of the week has been - Responsible

Task:

MyMaths:

Task 1: Complete the task on Roman numerals on mymaths and the number activity.

Task 2: Complete the money lessons and homework task. You can use the calculator in the corner to help you!

Click on menu in the corner to access the calculator

Online Homework Money calculations

Q1 0 12

Q2 - Pancake party

Pete invites his friends round for pancakes.
Work out how much he spends on the shopping.
Fill all the boxes.

Q2 0 10
