

Lundy Homelearning... Spring Wk19

MyMaths:

Number...Fractions...Y5...Modelling fractions and percentages

Number...Fractions...Y5... Fractions decimals percentages 1

Number...Fractions...Y5... Percentages of amounts

Grammar/ Topic:

Copy out 3 sentences from your reading book which are simple sentences (they have just **one main clause** and not much else!). Now add an embedded, **RELATIVE** clause into the sentence. **UNDERLINE** your relative clause please!

Reading! This week, you will be given your own ENGLISH SATs Booster Booklet of mini-tests. **DO** the **FIRST** test please. As you know, time is limited in the reading SATs so you are practising getting it done quickly but accurately.

ALSO!!...

DON'T FORGET - you are doing that survey of your family (including yourself obviously) about what they do to keep themselves healthy and active. You can present the findings on a piece of A4 (or other size paper) in any way you like (e.g. pictogram, bar-chart, facts and numbers/ percentages/ fractions) etc...and we will display them.

DON'T FORGET THIS!! Private reading is one of the best ways to improve reading!
