Guidance for Parents

with children in school

- When arriving home after school - children should remove clothes and put them in the wash.
- Children have been advised to tie their hair back and not wear any jewellery or watches to school.
- They should leave a black bin liner outside their house so when they return from school they can put their clothes straight in it and into the washing machine.
- The advice is to then go straight to the shower and not touch any door handles. If that is not possible then all handles should be wiped down.
- Body and hair must be thoroughly washed with shampoo and body wash.
