

16/9/22 Lundy Class

We have had a super week - working hard and getting into a routine.

In maths we have focused on number. We have been thinking about place value with decimal numbers and numbers up to 10,000,000. We have been improving our rounding skills using our knowledge of place value.

English has been learning our new text 'Weslandia' - the children have really enjoyed the character in the story, who creates his own civilisation.

In science we have been re-visiting properties of materials, ready to build on with our new learning.

Topic has been comparing maps of Europe in 1914, 1920 and the present day. We have also written our own definitions of what an empire is.

## **Home Learning**

### **Reading Challenge**

We expect you to read 5 times a week - you can read to an adult (as it's always good to read aloud to practise your expression), or talk to your adult about what you have read.

Remember to record your reading in the back of your home learning book.

### **Roald Dahl Day**

Have a look at the website below and look at the other authors that write similar books to Roald Dahl and pick one of the authors to research. Choose one of the other books that you would like to read. Explain why you would like to read this book and make predictions about it using the title and front cover.

Make predictions about the following:

- The time period it is set in and where it is set.
- The characters in it.
- What might happen in the story?
- What type of story is this?

**Maths** - continue with your 4 and 8 times tables. There will be a test next week!
