

Guidance for Staff

working in school _____

-  School staff should strip off and put their clothes in the wash as soon as they return from a shift where they have been in contact with children.
-  Staff have been advised to tie their hair back and take any jewellery off.
-  Staff should leave a black bin liner outside their house so when they return from work they can put their clothes straight in it and into the washing machine.
-  The advice is to then go straight to the shower and not touch any door handles. If that is not possible then all handles should be wiped down.
-  Body and hair must be thoroughly washed with shampoo and body wash.
