Year 5 Home learning

Week 34

We have been looking at rounding in maths, please complete the task on My Maths.

My Maths → Year 5 Booster → Number and Place Value → Rounding and accuracy

Have a go at the question below:

The **difference** between two numbers is **7**.

When one of the numbers is **rounded** to the **nearest 1000** it gives an answer of **7000**.

When the other number is **rounded** to the **nearest 1000** it gives and answer or **8000**.

What could the two numbers be?
