

14/1/22 Lundy Class

We have had such a hard-working week - the children have been really focused!

In English we have started unpicking the key features of instructional texts: adverbials; modal verbs

In maths we have been developing division skills and starting to apply these to problem solving.

We have had lots of fun re-creating the Dr. Who theme, using instruments and our voices.

Our science learning has been finding out about the solar system and trying to remember some of the facts.

Home Learning

Y5

Reading

We expect you to read 4 times a week - you can read to an adult (as it's always good to read aloud to practise your expression), or talk to your adult about what you have read.

Recommend a book

Make a copy of the front cover of your favourite book. You can use any type of materials to do this. Then, write inside a speech bubble about how the book makes you feel and why you would recommend this book to other people. For example:

This book made me feel excited because I couldn't wait to find out if the children survived. I would recommend this book because it is about the Amazon Rainforest and I learnt about the animals that live there.

Mrs Hughes says

Maths

Practise and learn your 12 X table facts for a test on Monday.

Y6

Reading

We expect you to read 4 times a week - you can read to an adult (as it's always good to read aloud to practise your expression), or talk to your adult about what you have read.

Practise and learn your 12 X table facts for a test on Monday.

Complete the following pages of your SATs books:

English Comprehension - pages 6 - 7

Maths SAT Buster Arithmetic - pages 17, 18 and 19

SPAG - pages 4, 5 and 6

Please remember to bring your books back in on Wednesday. You were all stars this week and did brilliantly! Please keep it up this week!
