Home Learning Week 32

Tarka Class

- In English we have learnt to retell the story of 'The Storm Whale.
- In Maths we have been learning to count in 2's, 5's and 10's and use this knowledge to help us do repeated addition.
- In PE we have worked together to create a dance about mini beasts.
- We have created Father's Day cards and have written special messages inside.
- In Science we have learnt what a habitat is and had a great time investigating the school grounds to see what mini beasts we could find.
- We enjoyed a fantastic visit from Ranger Russ who brought some interesting creatures to show us and taught us about habitats.

Home Learning

- Choose a habitat to explore in your garden or whilst you are out and about and record the creatures you find living there in your home learning book.
- Plastic bottles - Please remember to bring a large plastic bottle into school next week as we will be using them to create micro habitats in Science.
