

Exmoor home learning

14.1.2022

This week in English the children have written some fantastic poems of their own about animals using similes and metaphors. In maths we have continued our sequence on multiplicative reasoning and in science we created an experiment to test how light travels.

Maths

Please practice your times tables to ensure you can recall them quickly, below are so links to online games that may help.

<https://www.timestables.co.uk/>

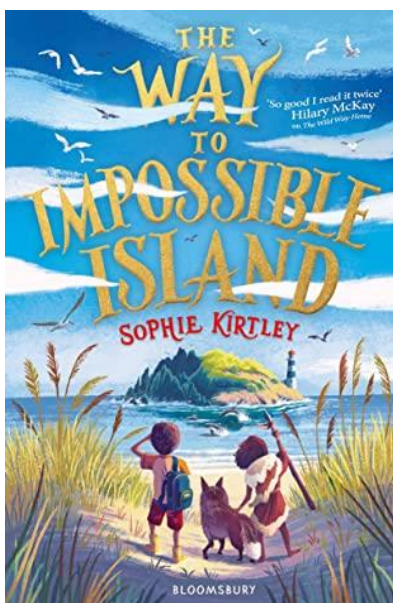

<https://www.topmarks.co.uk/maths-games/7-11-years/times-tables>

Reading

We expect you to read 4 times a week – you can read to an adult (as it's always good to read aloud to practise your expression), or talk to your adult about what you have read.

Recommend a book

Make a copy of the front cover of your favourite book. You can use any type of materials to do this. Then, write inside a speech bubble about how the book makes you feel and why you would recommend this book to other people. For example:

This book made me feel curious about what was going to happen to Dara and Moth girl and how their lives linked. I would recommend this book because it is so exciting. You never know what's coming next!
