

## 11/11/22 Lundy Class

In maths we have been learning about improper fractions and mixed numbers. We have also been solving problems involving fractions.

In English we have started a new unit of work based on traditional tales - our text is called 'The Princess' Blankets'.

We have been learning about Remembrance - we have been synthesising information to create explain how important this is.

We have been editing and redrafting writing about evacuees.

In science we have been interpreting graphs and learning to draw conclusions from results.

## Home Learning

### Reading Challenge

We expect you to read 5 times a week - you can read to an adult (as it's always good to read aloud to practise your expression), or talk to your adult about what you have read.

Remember to record your reading in the back of your home learning book.

### ENGLISH

Read the fairy tale at the link below and be ready to talk about what makes this a fairy tale.

<https://www.storyberries.com/fairy-tales-the-twelve-dancing-princesses-by-brothers-grimm/>

Read 1 other fairy tale of your choice that falls in the 7 - 12 age range and again think about what features of fairy tales it contains.

### Maths

- My maths - please use your login to do your maths homelearning. Only 11 of you completed last week's tasks - well done if it was you! Please login to do last week's task and also complete this week's task.

### Times Tables

It is essential that the children know their times table facts to help them in all areas of maths.

If you are confident with 4 and 8 times tables. Practise your 7 times table

**You could use the following to help you:**

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Make your own flash cards with the fact on one side and the answer on the other.

With an adult, find times table songs on Youtube to help you.

Get an adult to test you after learning them.

Find the facts in the table that you don't know and stick them on the wall or fridge so you look at them every day.

Have a growth mindset - be positive and think I can do this!

Do some practise every day - this is the only way to grow your brain!
