

Home Learning - Week 13

Can we please remind parents that an adult will collect the children from the playground at 8.35. If you are late dropping the children in, please do not enter the building as it can get very busy. Many thanks.

- In literacy we have been extending sentences using 'and'.
- In Maths we have been continuing to explore numbers up to 20.
- In History we have compared fossil hunters in the past to today.
- In Science we have designed a new habitat for a monster.
- In DT we have evaluated our clay pinch pot monsters.
- In RE we have learnt what advent means to Christians.

Home Learning

Make a Christmas decoration from recyclable materials you find at home and bring in to decorate the classroom.

It could be a paper chain, a star, an angel; have FUN!

Remember to record 4 reads in your home learning book. Parents **MUST** sign the book 4 times.

Reverse Advent Calendar

As a school, we are thinking about giving back this Christmas, as well as getting excited about what we might receive! **We are asking for each child to donate a good quality toy, book or game to contribute to a Reverse Advent Calendar.** Each class will have a box for donations from Monday 2nd December. Please do not buy anything new to donate, we would like you to **recycle** items that your child may have outgrown/lost interest in.
