

# Art Trek 2018

This term the children have studied the sculpture work of '**Michelle Reader**'. Each class have learnt about the techniques that she uses to create her artwork. They have spent time researching the impact that plastic has on the environment and have used this as inspiration for their own artwork.

We would like to invite you to view the children's work during our Art Trek Afternoon on **Thursday 12<sup>th</sup> July from 2:30pm**. Please collect an Art Trek Guide when you arrive and enjoy a walk around the school grounds to view the children's work. We also encourage you to take a look in each classroom and see the amazing work that children from across the school have done this year.

We will be raising money for the charity '**Children of the Dump**'.

The school council have organised refreshments and stalls or you could just make a donation.
